

# SCHS JV vs Sylacauga Post Game Analysis

January 11, 2020

## Take Aways from Sylacauga

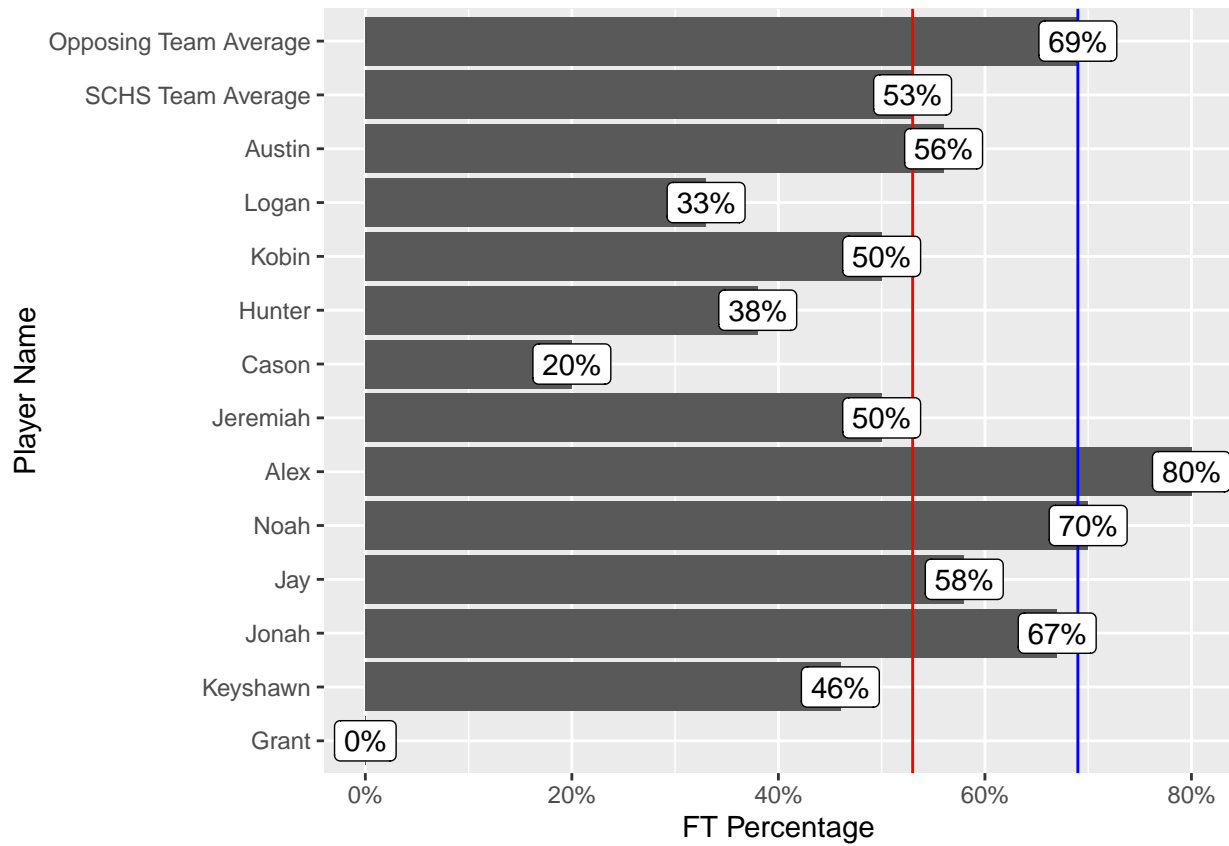

- **Spotted the Shooter Successfully:** #13 had 19 points in our first meeting and we held him to 5 in the second game. As a team, we only allowed 3 3-pointers, our *second best performance* of the year.
- **Prevented Points in Paint Unsuccessfully:** Sylacauga's big man had **15 points and 14 FT attempts**. We need to eliminate second chance points and make a wall defensively. We were lucky he was only 21% (3/14) from the FT line.
- **Keep Making More Free Throws:** Our trend of increasing FT Percentage has continued as shown in the graph below. Noah made 8/10 vs Sylacauga.

## Looking Ahead to Clay Central

- **Do What We Do:** Keep the pressure on. During the 1st half of Sylacauga, we caused more turnovers than we committed which is our first time doing so since St Clair.
- **Play a Complete Game:** During the 3rd Quarter, We Missed 6 Layups and Committed 8 Turnovers as well as being outscored 20-6. Don't do that.

## Season Free Throw Stats

Our opponents are shooting 16% better than us from the free throw line and have taken 78 less free throws than us.

Table 1: Raw Numbers for Above Graph

Name	FTM	FTA
Grant	0	1
Keyshawn	12	26
