

SCHS JV vs Central Clay County Post Game Analysis

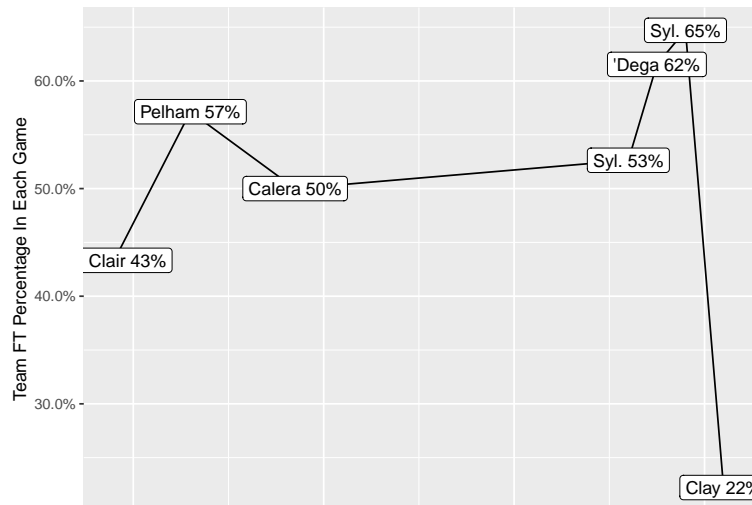

January 15, 2021

Take Aways from Clay Central

Way to Many Turnovers: We had **28 Turnovers** which is the same number that we had vs Talladega the first time. We are **averaging 26 turnovers** for the last 3 games.

Poor Backside Help: In our 3-2 defense, we allowed #5 to score many easy layups by just standing there on the block. Many other players for them had opportunities to as well, but were unable to make the shot.

Poor FT Shooting: We were **2/9 or 22% from the FT Line**. Key was 1/2, Logan was 0/2, and Austin was 1/5. We can't do this and expect to beat anyone, especially in a close game. This was our lowest FT rate of the season and is way down from what it had been recently (See Graph Below).

Looking Ahead to Talladega

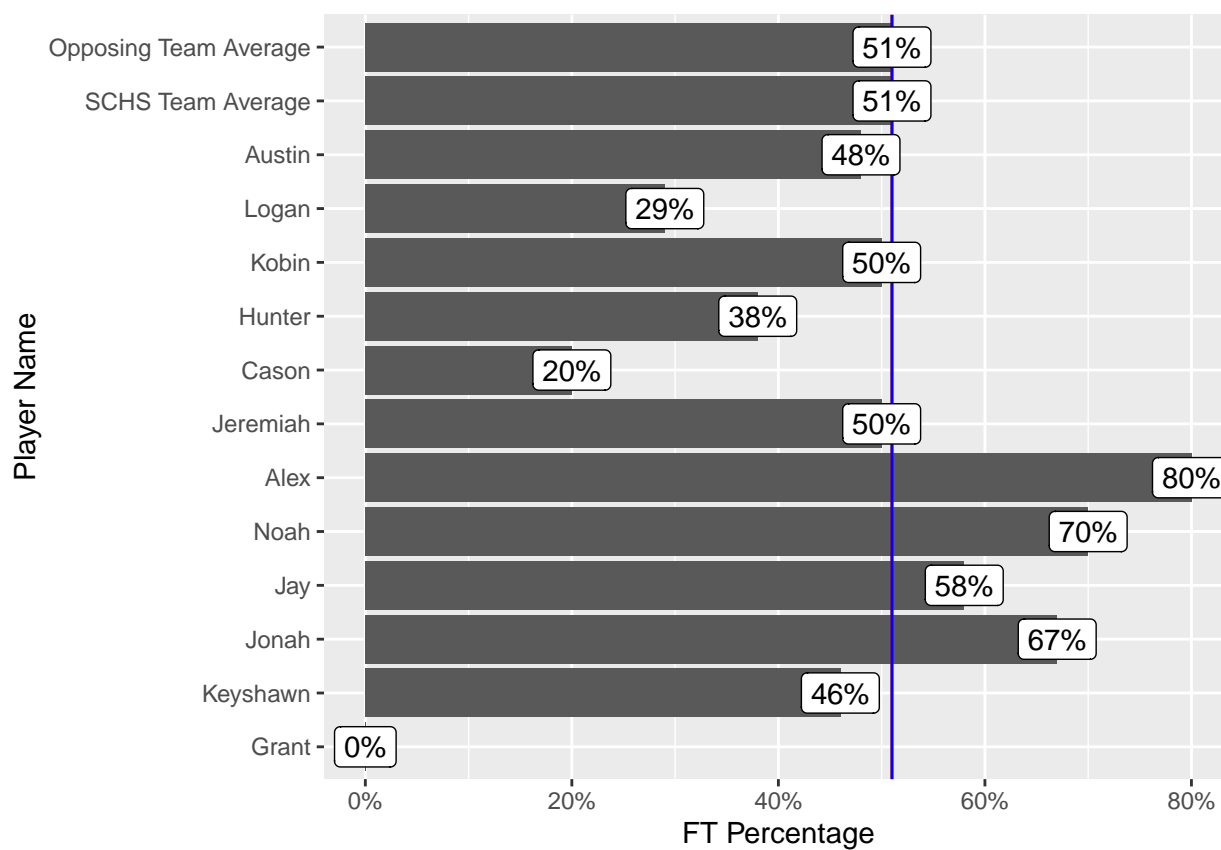

Find Our Bigs: In our last meeting, Austin has **10 Points in the 1st Quarter**, by far his best stretch in any game this season. Add in an improved performance for **Kobin (6 Points Against Clay)**, this could turn into a nightmare for Talladega.

Prevent Transition Points: When we forced Talladega into a half-court game, we were successful. However, when they ran their full court pressure, it caused us to have **28 turnovers** in our last meeting. We have to be smart with the ball and prevent turnovers, by getting into a half court setting and playing disciplined our plays.

Key Players: No real key scorers for them. They distribute the ball well. Last game **Number 22** had 14 points including a 3, **Number 14** had 10 points also including a 3, **Number 12** had 9 points. They had a host of players hovering around 6 points as well.

We need to take care of the ball in order to win.

Season Free Throw Stats

Our opponents are shooting 0% better than us from the free throw line and have taken 69 less free throws than us.

Table 1: Raw FT Numbers for the Season

Name	FTM	FTA
Grant	0	1
